The Center for Transportation and the Environment is a national University Transportation Center funded in part by the U.S. Department of Transportation. CTE’s mission is to help transportation and environmental agencies and stakeholder groups collaborate on the design and implementation of solutions that improve transportation systems while protecting the nation’s critical natural resources and the vitality and livability of its communities. For more information, visit www.cte.ncsu.edu.

RECENT RESEARCH PROJECTS
- National Dialogue on Context Sensitive Solutions (workshops to be held Fall 2009).
- Guidebook for NCHRP 25-30: Temporary Bridging to Avoid or Minimize Impacts to Waters and Wetlands during Highway Construction (with Mulkey Engineers, released September 2008).

RESEARCH PUBLICATIONS
- Evaluation and Implementation of BMPs for NCDOT's Highways and Industrial Facilities. Jy S. Wu, PhD, P.E., Department of Civil Engineering, and Craig J. Allan, PhD, Department of Geography & Earth Sciences, University of North Carolina at Charlotte. CTE-NCDOT Joint Environmental Research Program (report released June 2008).
- Ecological, Morphological, Micromorphological and Molecular Analyses of the Species in the Hexastylis heterophylla Complex. Zack E. Murrell, PhD, Department of Biology, Appalachian State University. CTE-NCDOT Joint Environmental Research Program (report released May 2008).

WORKFORCE DEVELOPMENT
- Context Sensitive Solutions Training. Ongoing - 1,500+ professionals trained to date (3 days).

CONFERENCES & WORKSHOPS
- CSS National Dialog Workshops, Fall 2009, various US locations (lead organizer).

RECENT TELECONFERENCE BROADCASTS
- Transportation and Climate Change: Time to Think, Plan, Mitigate, and Adapt, December 2008 (CTE National Broadcast).
