

DIRECTORY
OF
STATE HIGHWAY AGENCY
AND
FEDERAL HIGHWAY ADMINISTRATION
ENVIRONMENTAL OFFICIALS

Transportation Research Board
Committee on Environmental Analysis in
Transportation
2009 Edition

Preface

This Directory of State Highway Agency and Federal Highway Administration Environmental Officials (Directory) has been prepared by the Transportation Research Board (TRB) Committee on Environmental Analysis in Transportation (ADC10) as a reference for those working in the transportation NEPA / environmental arena. The Directory is a compilation of contact information furnished by each of the State Highway Agencies (SHA), District of Columbia (D.C.), and Puerto Rico. The Directory also includes contact information for the Federal Highway Administration's (FHWA) Headquarters Office of Planning, Environment & Realty; Resource Center Environment Technical Service Team (TST); and Division Office Environmental Contacts.

Due to continuous evolution of staff at the agencies listed herein, it is likely that parts of this directory were out of date before it was published. Alaska, Minnesota, New Jersey, and Wisconsin did not respond to our contact information requests. The contact information for these agencies are identical to the information published in the 2004 Edition of the Directory, and will be updated when current information is received.

The "Official" is the individual at the listed agency with primary National Environmental Policy Act (NEPA) responsibilities. Most often, this person has full-time involvement in environmental matters.

Environmental specialists and other environmental staff are included with each agency's entry, where appropriate and available. Only persons other than the Official have been listed as "Specialists", even though the Official may have expertise in one or more disciplines. In some cases, the highway agency has a working arrangement with another agency for certain environmental studies. Therefore, if a particular specialist is not listed for a given state, the Official listed should be considered the contact person for such matters.

The agencies listed herein are encouraged to send updates and additions to cgesing@mbakercorp.com. The Directory will be updated as new information is received. The latest version of the Directory is available on the Environmental Analysis in Transportation Committee's website at <http://www.itre.ncsu.edu/ADC10>.

The Committee would like to thank Marilyn E. Waddell for coordinating the agency updates and preparing the Directory.

Christopher G. Gesing, P.E.
2009 Edition Editor and Committee Member

Agency: Alabama Department of Transportation (ALDOT)

Office with Primary NEPA Responsibility: Design Bureau Environmental Technical Section

Website : http://www.dot.state.al.us/Bureau/Design/environmental/environmental.htm
