

Welcome to Elluminate Live !

Elluminate Live ! What is it ??

- Elluminate Live is an online, interactive teaching tool that uses voice over the Internet technology.
- The TIMS support staff will begin using this online classroom to teach and discuss topics used with TIMS.

Illuminate Live !

- Benefits:
 - No expense for travel.
 - Shorter and more focused topics.
 - Sessions can be scheduled quickly.
 - Sessions can be recorded and viewed anytime.
- In most cases we will limit the class time to 1 ½ hours or less in order for it to be more manageable for TIMS Operators to participate.

Illuminate Live

- Prior to your first meeting you should visit the Illuminate website to set up your computer and headset for use with the Illuminate sessions. The *Support Tab* on the Illuminate website will allow you to check and see if you have Java installed and direct you to the configuration room to test and set up your headset.

www.illuminate.com

So easy even children can do it !!

Logging into the meeting

- ▣ You will receive an email with instructions and a link to the Elluminate session. You simply sign in with your name as you wish it to appear in class.
